EDITORIAL LETTER

Welcome to the Journal of Agriculture and Applied Biology (JAAB). This journal disseminates the latest findings in the fields of agricultural science and technology as well as tropical plant biology.

Agriculture in the tropics is a future source of food and fiber. Advanced science and technology in agronomy, horticulture, agrotechnology, biotechnology, and tropical plant biology would improve people's welfare and sustainability. Therefore, JAAB supports knowledge finding by being at the forefront of publishing research results.

JAAB is managed by an expert team of researchers with appropriate academic background and numerous experiences in the world of journal publications. The JAAB double-blind peer-reviewed system and led by a multi-institutional editorial board works with high motivation to professionally uphold scientific credibility and ethics. JAAB welcomes the best articles to be published as best papers on tropical agriculture.

Potential authors are welcome to send the best manuscripts to be published in JAAB. In the future, JAAB would like to make a significant contribution to advancing the world of publication, and serve as a literacy legacy for future generations.

Editor in Chief

Darwin H. Pangaribuan

CONTENTS

Authors	Title	Page
Dina Dyah Saputri, Annisa Wulan Agus Utami page	The Potency of Purple Sweet Potato (<i>Ipomoea batatas</i>) Leaf Extract as Biofungicide for Controlling Fusarium Rot on Chili	1-8
